

SOPHIE + SAGE

How the exit works

Safe intake. Signal or Proton via the partner. No direct contact until safe-channel consent.

Blueprint. A 24 to 72 hour packet to the partner: budget, cost-of-living audit, credit triage, checklist. The partner decides what she sees.

Execution. Housing applications, utility waivers, movers and storage.

Handoff. She is housed. Utilities are stabilized. The partner keeps the bond.

Referral only. No public client list. Henderson, NV. Remote US.
